

PROPEL-XFRAME-PANELS

Base Product

Front access fiber panels for Propel XFrame

Two panel types are available for the Propel XFrame:

- HCM (Horizontal Cable Management) panels: HCM panels maximize density within the frame. Patch cords are routed across the front of the panel providing maximum frame density
- VCM (Vertical Cable Management) panels: With VCM panels, patch cords are routed straight down to a trough and over. This provides finger access for Moves, Adds and Changes

Product Classification

Portfolio	CommScope®
Product Brand	Propel
Product Series	PPL

General Specifications

Functionality	Patching Splicing
Growth Configuration	Unloaded

Environmental Specifications

Safety Standard	UL
