

HELIAX[®] Non-halogenated Riser (NHR) Cables

HELIAX[®] Non-halogenated fire retardant cables supplied by Andrew Solutions are covered under the Limited Product Warranty within the Standard HELIAX[®] Cable, Connector, Accessory and Cable Assembly Products section. The warranty covers HELIAX[®] NHR cables for 10 years from the original shipment date. Full details of the Limited Product Warranty can be downloaded from our website www.commscope.com/andrew.

HELIAX[®] Non-halogenated and Non-halogenated Riser (NHR) cables do contain UV stabilizers which support long life when exposed directly to sunlight. The formulation of the fire retardant jacket material is different from the standard jacket material. Understanding the cable application and weather exposure is important in choosing the correct cable. For further information on long cable life in extreme temperature changes, please contact your local Andrew Solutions representative.

Visit our Web site at www.commscope.com/andrew or contact your local Andrew Solutions representative for more information.
